RELEVANT WORK EXPERIENCE

2025 - 2025 **FULLSTACK DEVELOPER INTERN**, Etraveli Group AB - Gothenburg, 6 months
- Worked in a team with developers, product owner, UX-designer, and a tester
- Developed features in Next/React.js with TypeScript and improved UI flows
- Connected UI to APIs (REST) with clear modeling, validation, & error handling
- Regularly reviewed other developers' code and received feedback on my own
- Worked within existing CI/CD pipelines using Jenkins with Docker, Git & Jest

2024 - 2025 **FULLSTACK DEVELOPER INTERN**, Humblebee AB - Gothenburg, 6 months
- Collaborated with designers and developers in a cross-functional team
- Developed a fullstack-MVP with React, TypeScript, Node.js, and PostgreSQL
- Iterated and improved the solution in short cycles based on feedback

OTHER WORK EXPERIENCE

2017 - 2022 **IT-PROJECT MANAGER**, Schenker AB - Gothenburg
- Led migration, integration and web development projects
- Coordinated activities for groups consisting of 4-10 people
- Prepared, followed up, and reported status, budget, time and risks

2015 - 2016 **PROJECT COORDINATOR**, Ford Motor Company AB - Gothenburg
- Coordinated onboarding and IT implementation for new Ford Stores
- Trained users and provided support in Ford's internal IT systems

2024 - 2025 **PART-TIME STORE ASSISTANT**, Brothers AB - Gothenburg
- Customer interaction and service in a fast-paced environment
- Cash register operations and handling customer inquiries

2010 - 2011 **TERMINAL WORKER**, Tollpost Globe AS - Oslo

2004 - 2007 **PROCESS / MACHINE OPERATOR**, SKF AB - Gothenburg

EDUCATION

2023 - 2025 **FULLSTACK JAVASCRIPT DEVELOPER**, IT-Högskolan - Gothenburg
- Created UI and UX designs based on customer needs
- Developed fullstack applications with React, HTML, CSS and Node.js
- Created web applications that make calls to external API's
- Developed backend and REST API's (CRUD, validation, error handling)
- Created Databases with PostgreSQL/MongoDB & ensured data integrity

2023 **INDEPENDENT COURSES - Programming (C# / .NET)**
C# I - 7.5 credits, Luleå University of Technology (remote)
C# II - 7.5 credits, Chalmers University of Technology - Gothenburg

INDUSTRIAL ENGINEERING, Chalmers University of Technology - Gothenburg
2011 - 2013 **M.Sc.** Management and Economics of Innovation
2007 - 2010 **B.Sc.** Industrial Engineering and Management

2001 - 2004 **NATURAL SCIENCE**, SKF's High School of Technology - Gothenburg

ABOUT ME

I am an enthusiastic and curious fullstack developer who enjoys expressing creativity through programming. My background as an engineer and former IT project manager has given me a strong ability to solve problems, work in a structured way, and understand how technology and business fit together in real-world systems. I combine technical competence with curiosity and reliability, and I enjoy working collaboratively in team environments where learning, quality, and long-term thinking matter.

SKILLS

Next.js, React, Tailwind CSS
TypeScript, JavaScript, C#, HTML, CSS
Node.js, .NET
Prisma, Mongoose
PostgreSQL, MongoDB, REST
Jest, Cypress
Jenkins, Docker, Git,
Vercel, Render, Neon
NextAuth, OAuth
npm, bun
gitBash, powerShell
Figma, FigJam
Sonet, Opus, ChatGPT, Gemini
Cursor, Claude
Jira & Confluence

CERTIFICATES & MERITS

Professional Scrum Master (PSMI)
ITIL Foundation in Service Management
Project Management Professional (PMP)
PRINCE2 Foundation in Project Management

LANGUAGES

Swedish (Bilingual)
English (Full Professional)
Serbo-croatian (Professional)
